

I am greatly disturbed by recent news that Sinclair Broadcasting has been airing a program that is blatantly biased against the Presidential Campaign of John Kerry, and has not been offering "equal time" for a program such as "UpRiver". The media outlets in this country have a responsibility to air a range of ideas; they serve a vital role in our democracy, and should continue to do so without special interests dictating a particular political agenda. Please look into this recent practice of the Sinclair Broadcasting Co., and take action to rectify it.
